

Testimonials

I've waited almost six months before writing my testimonial, because I was curious to see what impact your reading would have on me. The result? You confirmed, with spirit's assistance, what I needed to do career-wise. I'm much happier and more at peace as a result.

Your connection with three people who have passed has helped me in extending important messages to family members, thereby assisting in much needed emotional and mental healing. In addition, you gave me sage advice on how to improve my relationship with a family member. Things are now back to how it used to be, thanks to spirit's involvement. I'm grateful for this.

Aside from your outstanding professional work, I find you warm, generous and a very thoughtful soul. Your honesty and compassion, during the reading, came through loud and clear. I cannot help but want to be in your company. Carolyn, you are amazing. Your reading and connection to spirit is inspiring. Thank you. S.B. (Toronto)

I had recommended to a young fellow that I work with that he might want to set something up with you for a reading. He did, and you "blew him out of the water". When he was talking with me about it, it dawned on him that you had asked about the name "Lxxx". It didn't ring any bells at the time, then he realized it was probably me. L.H. (Bolton)

I just wanted say thank you for the great tips on working with my gifts. I have been asked to be the main guest on a tv show in the New York area in the fall and I'm s happy I took your class. I feel confedent to be in a full room of people and do spirit centered work!! You two helped me alot. J.L (New Jersey)

Carolyn's psychic development class was key in helping me unfold and explore my intuitive self. I had many phenomenal expeirnces with the help of her knowledgeable guidance. One activity that stands out is when we created our intuition boards. I recently found this from October of 2006 and was amazed to see how it reflects my life. The exercise had picked up on the man that I would meet 5 months down the road who is now the person that I am engaged to be married to! It is amazing how the pictures reflect him: a dark haired man standing on a beach, the type of car he drives, his dog, his interests and hobbies, and a picture of a diamond engagement ring. But best of all above these pictures, I had cut out the words "the real thing." And that it is, and so is Carolyn. D.W. (Toronto)

I sincerely enjoyed last evening too ! You really have a beautiful gift that brings comfort and peace to many people I'm sure. Your style was very relaxing and you created a very safe atmosphere for everyone. C.A. (Bolton)

Thank you for seeing my mother and giving her comfort after speaking to my father who passed two years ago. You were very accurate with everything! I was concerned that she would not find peace after the meeting but she did. It all brought me comfort as well. There were many things left unresolved that I didn't know how my father felt about me. Thankfully it still came through that he is still my friend. I speak to him daily and now my son sees him, as confirmed at my mum's session. G.V. (Toronto)

I had recommended to a young fellow that I work with that he might want to set something up with you for a reading. He did, and you "blew him out of the water". When he was talking with me about it, it dawned on him that you had asked about the name L. It didn't ring any bells at the time, then he realized it was probably me. L.H. (Bolton)

Carolyn's teaching style and sense of humour are amazing. Students are encouraged and empowered to speak their truth and give their messages. Honour and compassion for all. Thank you! C.B.

I just want to thank you so much for today. I think the universe divined today. I feel 100% better about life. I needed today to connect me with my beliefs again and to realize that life only has good things in store for me. Your peaceful energy calmed me and made me put everything in perspective. J.C.

I spent the day with my Mom today, and told her that her sister came thru to you on Sunday evening during our 'meditation circle'. My mom confirmed that she only had one sister (of 5) who had blue eyes, named Agnieszka, called Aga, for short, and she did have a stroke on the complete right side. All items were confirmed. She was pleased to hear of her sister again, and asked that I pass on to you a 'thank you' for the message. D.B.

Gracious and gentle, author and psychic medium, Carolyn Molnar's soothing voice invites even the most fearful client to take a deep breath and relax. Psychics and Mediums In Canada, Deborah Vaughan and Jean Porche, Dundurn Press, 2005

The knowledge that you shared at the "Granary" has continued to be a source of comfort, empowerment and hope in my life. I am continuing to develop my relationship, if that's the right word, with my guides and feel more and more confident in my own intuition. I have had very clear and immediate messages from my guides and God and truly feel them around me. N.D.

Thanks to YOU Carolyn....I look forward to returning...the experience lightened, enlightened and inspired me...thanks! K.H.

Carolyn is a gifted and grounded healer. The information and insights that she gave me were exactly the impetus that I needed to uncover places within myself that have begun to unravel my current mysteries and are leading me into the next part of my journey.
